

ASHRAE Scholarship Application

The Utah Chapter of the American Society of Heating, Refrigerating and Air Conditioning Engineers is offering multiple scholarships (up to \$1,500) to undergraduate engineering students attending area colleges. One graduate level scholarship may be awarded if there are an adequate number of applications from qualified individuals.

Students who have an interest or background in thermodynamics, psychrometrics, fluid mechanics, indoor air quality, energy, building automation or controls, heating, ventilating, refrigeration or air conditioning (HVAC) principles are invited to apply. If you are in your junior or senior year, please submit the following:

- Cover letter stating how receiving this scholarship will help you in your education which may lead to a career in the building sciences, energy or HVAC fields.
- Resume of your relevant classes and/or work experience relating to these areas.
- List of classes in these areas that you have completed or are planning to take.

Please submit this application package, signed by your academic advisor (cover letter), to the Utah ASHRAE Student Activities Chair (see contact info below). **The deadline for receiving these applications is February 7, 2018.** The Utah ASHRAE chapter Board of Governors will review the applications and select up to three successful students to be awarded the scholarships.

Student membership in ASHRAE is encouraged, but not required. Enjoy membership benefits and privileges for only \$20.00. To join or learn more, visit <http://ashrae.org/students>.

If you have any questions, please contact the Utah ASHRAE Student Activities Chair, see contact information below:
